A Major Milestone: RAMA Impact Joins the Resilient Futures Fund

Every milestone reflects the power of supporting women-owned solutions.

We are proud to announce that **RAMA Impact** has been selected as a 2026 grantee of the **Resilient Futures Fund (RFF)**, **managed by 2X Global.**

This milestone strengthens our commitment to supporting women-owned climate solutions through access to **tailored financing, technical assistance, and growth opportunities.**

Building Connections, Creating Opportunities

Meaningful change grows through the connections we build.

Swedish Institute

RAMA Impact participated in the Swedish Institute's Impact Pioneers 2026 Programme, connecting with changemakers and exploring new opportunities for collaboration.

impactcollab
powered by Pipsa

Our engagement with AVPN ImpactCollab further reflects our commitment to building partnerships that help women owned ventures grow.

Empowering Founders Through Knowledge

The right knowledge today builds stronger businesses tomorrow.

We hosted a legal workshop with **Hisham Kassim,** Founder and CEO of **Kassim Legal**, exploring fundraising instruments and founder agreements to help entrepreneurs strengthen their legal knowledge and prepare for future growth.

Milestones Worth Celebrating

Taking the Next Step Towards Growth

PigmentOCO: Innovation That Keeps Winning

Congratulations to Amal Chebbi and PigmentOCO on winning first prize at the Avantes Fashion Pitch 2026.

The celebrations continued at POESAM 2026, where PigmentOCO received Second Prize and the National Women's Prize, while continuing to showcase its innovation on international stages.

MIRRIAH: Making Waves Across Borders

Nidal Tafah, co-founder of MIRRIAH, was selected among Africa's Business Heroes Top 20 and recognised as a 2026 Cartier Women's Initiative Fellow and second-place awardee.

MIRRIAH also secured first place at the SANAD ElevateHer competition and received recognition through YouthClimate Adapt, celebrating its innovative approach to solar-powered irrigation.

Leukeather: New Doors, New Possibilities

Nuhayr Zein, founder of Leukeather, joined the Sharjah Women Impact Fellowship (SWIF), opening new opportunities for mentorship and growth.

She was also selected as a Kering Generation Award finalist and participating in programme activities in Riyadh.

Leukeather creates sustainable, plant-based vegan leather alternatives using agricultural waste and natural materials.

SavvyElement Takes on Shark Tank Lebanon.

SavvyElement has been selected to participate in Shark Tank Lebanon, an exciting opportunity to showcase its venture.

Smart Sensory's Keren Makari Takes the Stage

Keren Makari, founder of Smart Sensory, was invited as a keynote speaker at the Child Justice Summit in Mombasa, Kenya.

An opportunity to share her experience and contribute to important conversations around children's rights and inclusion.

Portfolio Highlights

Moving Forward, Growing Stronger

Every step towards financing is a step towards greater possibilities.

Congratulations to **Smart Sensory**, **Tuwe Bora**, **Girl Farms Hub**, **Vangreen Enterprises**, and **Western Silk Uganda** on successfully progressing from our pre-loan to loan track.

Following their successful loan applications, these enterprises are moving forward on their financing journeys. **We also welcome Papyri to our pre-loan track.**

Tuwe Bora

A Kenyan social enterprise transforming textile waste into quality garments while providing skills training and employment opportunities for formerly incarcerated women and unemployed youth.

Smart Sensory

A Kenyan social enterprise turning recycled plastic waste into affordable sensory products, supporting children with neurodevelopmental conditions and promoting inclusive care.

Girl Farms Hub

A Ghanaian social enterprise transforming underutilized crops into nutritious, natural food products while reducing post-harvest waste and empowering farmers and smallholder farmers.

Western Silk Road

A Ugandan agribusiness supporting sustainable beekeeping and honey production while connecting smallholder farmers, particularly women and youth, to new market opportunities.

Vangreen Enterprise

A Kenyan social enterprise converting agricultural waste into sustainable charcoal briquettes and biochar, reducing deforestation while creating additional income opportunities for local farmers.

Papyri

Pre-Loan Program

Egypt

Papyri is an Egyptian woman-owned sustainable design brand founded by Rui Mouag, transforming ancient Egyptian fibres into innovative architectural surfaces, furniture, and decorative materials. Through traditional craftsmanship and circular production practices, it promotes sustainability while creating income opportunities for women from underserved communities.

With 50/50 AI Impact's non-financial support, Papyri aims to expand into international markets, create 5 additional jobs, sell 400 m² of papyrus-based surfaces, and potentially reduce 80 tonnes of CO₂e emissions over 12 months.

She will be exhibiting at the Design Doha Biennial 2026

Someone is waiting for the incentive you could become.

Apply now!

Your contribution doesn't fund projects.
It funds women building solutions for their communities.

Apply now!

What's Next?

Every investment in a woman entrepreneur creates opportunities that extend far beyond one business.

With gratitude to our **donors, mentors, advisors, partners, and supporters**, your belief fuels our mission and multiplies our impact year after year.
